

Referral Tracker Dashboard

Excel portfolio case study - reusable input register and management dashboard

SYNTHETIC DATA

No client or user information

WORKBOOK PREVIEW

WHAT IT DEMONSTRATES

- 01 Controlled intake**
100 rows of dropdown validation for service, owner, and stage.
- 02 Decision-ready KPIs**
Referral counts, win rate, pipeline value, and owner performance.
- 03 Native Excel visuals**
Formula-backed stage summary, data bars, and a native chart.
- 04 Reusable handoff**
Demo rows can be cleared without breaking formulas or validations.

NO VBA

NO EXTERNAL LINKS

INPUT CONTROL

Typed date and currency fields plus controlled Service, Owner, and Status lists reduce inconsistent entries.

REUSABLE DESIGN

Dashboard formulas remain connected through row 105, so the synthetic rows can be replaced safely.

SAFE HANDOFF

The deliverable includes the .xlsx workbook and guide, with no macros, external links, or hidden dependencies.
